

Renin is an international manufacturer and distributor for a wide range of indoor barn, bifold, and bypass doors. With innovative solutions and the highest quality products, Renin not only manufactures and distributes doors, but also carries hardware, room dividers, fabricated glass, and home décor elements for both residential and commercial spaces. With our commitment to quality and our innovative approach to leadership, we have been able to create unique solutions to solve every customer's needs, with its global head office located in Brampton, Ontario, Canada.

We are currently seeking a results-driven and highly motivated **Punch Press Operator for our Afternoon Shift.**

Role Overview:

Responsibilities include configuring equipment and calibrating gauge settings, recognizing conditions of dies, loading raw materials onto the equipment, feeding raw material through die, positioning, and removing parts from the die and completing quality inspections to ensure finished product meets expectations.

Qualifications:

- Load and unload die's into steel punch presses (100 ton plus) as required
- Set-up presses with appropriate dies and raw materials to run production requirements
- Advise tool and die technician when press or die requires maintenance
- Keeps a record of operational data and performs routine equipment maintenance
- Run production and record as required
- Operator monitors work schedule to ascertain production information, such as size, type, and quantity to be processed

Qualifications & Experience:

- Must have direct experience and full proficiency in independently running punch press
- 1-3 years related experience

Please submit an up-to-date résumé addressed to the attention of the Human Resources Manager, to the following e-mail address: careers@renin.com

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
