HOW TO MEASURE FOR A CLOSET DOOR

MKTD4074 ENG REV 2021

MEASURING THE FINISHED OPENING

It is important to measure a finished opening in the following places to the nearest 1/8"

BYPASS DOORS
For bypass doors, use the shortest height measurement and largest width measurement when selecting your door.

A	B	C	D
Width at Top	Width at Bottom	Height (Left Side)	Height (Right Side)

BIFOLD & PIVOT DOORS
For bifold and pivot doors, use the smallest height measurement and smallest width measurement when selecting your door. NOTE: If the diagonal measurements are more than a 1/2" difference, the doors will not slide open or closed completely and the opening should be fixed so the opening is straighter.

A	B	C	D
Width at Top	Width at Bottom	Height (Left Side)	Height (Right Side)

E	F
Diagonal	Diagonal
