Find the Perfect **BARN DOOR** for **YOUR SPACE**

Barn doors do more than divide spaces - they add character, function, and style to your home. Whether it's a rustic touch for a bedroom entry, a space-saving solution for a laundry room, or a statement piece for a home office, the right barn door brings harmony between design and practicality.

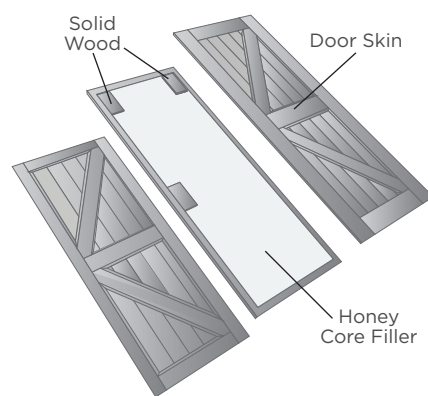

Do you prefer a classic farmhouse feel or a more modern, industrial edge? Are you working with a tight space, or looking for a bold focal point that slides open with ease? Whatever your style or space demands, we'll help you find the perfect barn door to suit your needs.

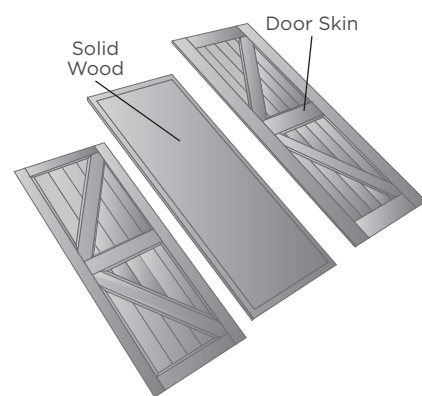

Choosing Your DOOR TYPE

Not all barn doors are built the same—and that’s what makes them so versatile. From lightweight hollow core options to bold industrial styles, each door type offers a unique balance of form, function, and character. Whether you’re after quiet performance, added durability, or a standout visual element, there’s a barn door construction that fits your space, lifestyle, and design vision. Explore the options below to find your perfect match.

DOOR TYPE	HOW IT WORKS	BEST FOR
Hollow Core	Lightweight door with hollow interior; easy to install.	Budget spaces, low-traffic areas, simple functional use.
Solid Core	Dense, solid build for weight, strength, and sound control.	Bedrooms, offices—anywhere privacy and quiet are important.
Solid Core Insert	Solid frame with decorative or glass insert panel.	Stylish spaces needing both function and custom design.
Industrial	Durable aluminum frame with glass inserts.	Modern, industrial spaces that need bold, open design.

Choosing Your HARDWARE TYPE

Barn door hardware isn’t just functional—it defines the door’s entire look and movement. From sleek top mounts to more classic strap styles, your choice of hardware can shift the style from rustic to modern in a snap. Explore these three options to find the right balance of form and function for your space.

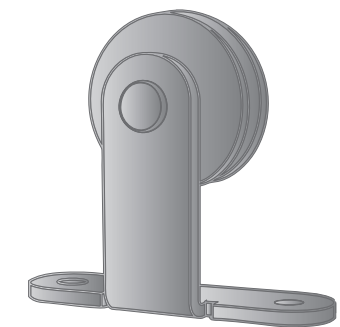

HARDWARE TYPE	HOW IT WORKS	BEST FOR
Straight Strap	Flat straps mount on the front of the door panel.	Classic barn door look with a clean, timeless finish.
Bent Strap	Straps curve over the top edge of the door.	Rustic spaces or farmhouse-inspired interiors with added detail.
Top Mount	Hardware mounts directly to the top of the door.	Modern, minimalist spaces with a clean-lined aesthetic.

HARDWARE KITS

Features & Benefits

Adding the finishing touches to any renovation or decorating project completes the look of a home. A sliding barn door kit not only enhances functionality but also elevates a room's style.

With a wide range of options available, it's important to consider how the door's design and finish complement your décor and how the hardware fits within the space.

Sliding barn door hardware is like the jewelry of a room - the detail that reflects the homeowner's personality and style.

Standard Sizes: 78-3/4", 96" track lengths

All hardware kits come with either a 78-3/4" or 96" track with matching finish

SINGLE TRACK BYPASS

BARN DOOR HARDWARE KITS

Features & Benefits

Our innovative single-track bypass barn door hardware kit streamlines the traditional bypass system by eliminating one of the tracks, allowing the doors to sit closer to the wall. The result is a cleaner look that provides greater privacy, enhanced space efficiency, and a modern aesthetic for any room.

Hardened Steel Hardware with offset hangers designed to allow two panels to bypass over an opening on a single flat track. Each kit includes all hanging hardware for panels weighing a combined 250 lb.

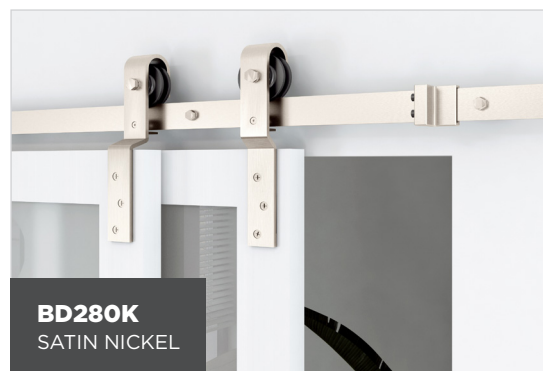

Standard Sizes: 78 3/4", 96" track lengths

78-3/4" track is compatible with (x2) 12", (x2) 15", (x2) 18", (x2) 30" and (x2) 36" wide door slabs

96" track is compatible with (x2) 42" wide door slabs

BD280K
MATTE BLACK

BD280K
SATIN NICKEL

DOUBLE TRACK BYPASS

BARN DOOR HARDWARE KITS

Features & Benefits

When wall space is limited, the bypass hardware kit allows two barn doors to slide independently along a single track system without requiring additional clearance.

This space-saving design enables one door to glide smoothly over the other, making it an ideal solution for closets, pantries, or multiple adjacent openings on the same wall.

Standard Sizes: 78 3/4", 96" track lengths

78-3/4" (5 Brackets) and **96"** (6 Brackets)

Features & Benefits

Our innovative cable-driven synchronizing technology allows bi-parting doors to open and close simultaneously with a single motion.

Simply pull one handle, and both doors glide smoothly in unison. This easy-to-install hardware system enhances both functionality and versatility, making it a smart upgrade for any sliding door application.

Standard Sizes: 78 3/4", 83-7/8", and 96" track lengths

78-3/4" track is compatible with (x2) 12", (x2) 15" and (x2) 18" wide doors. For (x2) 36" wide doors. The 78-3/4" Track Extension Hardware Kit is also needed

83-7/8" track is compatible with (x2) 21" wide doors. For (x2) 42" wide doors the 83-7/8" track Extension Hardware Kit is also needed

96" track is compatible with (x2) 24" wide door slabs

ACCESSORIES

Features & Benefits

Our barn door accessories goes beyond functionality - it's about style and craftsmanship. From sleek, minimalist handles to rustic, hand-forged pulls, our distinct handle options let you create anything from a subtle accent to a bold statement.

Complement your setup with our range of coordinating accessories, including matching track systems, soft-close mechanisms, floor guides, and decorative straps. Every detail is designed to enhance both the performance and aesthetic of your barn door, bringing character and seamless operation to any space.

BARN DOOR HARDWARE KIT

EASY CLIP SOFT CLOSE

BARN DOOR ACCESSORIES

Features & Benefits

Our patented Barn Door Easy Latch Hardware provides the privacy you need without sacrificing style or functionality.

Designed for compatibility with most flat track barn door systems, the Easy Latch offers a simple, DIY-friendly installation. Its smooth, effortless operation meets ADA compliance standards, making it an ideal solution for both residential spaces and commercial or hospitality environments.

The Easy Latch surface-mounts directly to your barn door, eliminating the need to remove the door during installation for a quick and effortless setup. The locking bar attaches cleanly to the edge of the door - no drilling into the wall or door jamb required - preventing any damage to your existing opening.

BDF8000
MATTE BLACK

Features & Benefits

Our universal Easy Clip Soft Close attachment is engineered for quick, discreet installation on most flat track barn door hardware kits.

This patent-pending, low-profile innovation mounts seamlessly behind the track and can be added in just minutes to new or existing barn door setups. The first of its kind designed exclusively for barn doors, the Easy Clip attaches to both ends of the track to ensure smooth, controlled travel and effortless open-and-close operation every time.

Kit includes 2 Easy Clip Soft Close attachments for both ends of your track to open and close quietly and effortlessly.
